## CONSUL DEMANDS PROMPT HEARING

El Paso, Tex., Oct. 2.—American Consul A. D. Edwards at Juarez notified Colonel Juan N. Vasquez, federal commander there, that the United States expects a speedy hearing for Miss Concepcion Zuniga, the Arizona girl, held as a spy in Juarez. The girl is under guard in a private house.

## TIMBER SALES AND FREE TIMBER IN DISTRICT NO. 4

Over eighty million feet of timber was cut from the national forests of District No. 4 during the past fiscal year, according to a statement just compiled by the local district office of the forest service. The above amount was cut under sales and free use and the total shown for the year is a considerable increase over the cut for the preceding fiscal year. The average stumpage price received for the timber cut under sales during the year was \$2.18 per M. for green and \$1.74 per M. for dead material. There were 1,338 timber sales made and practically every stick of timber sold was used locally in the regions surrounding the national forest.

Of the above total 35,741,000 feet were cut under free use, no stumpage charge being made for this material. The free use regulation provides that settlers living within and adjacent to the national forests are entitled to \$20 worth of timber free each year. It is expressly provided that timber given away under the free use regulation cannot be used commercially, but must be utilized by the permittee upon his ranch or farm land.

The extent which the forest service aids new settlers in furnishing them free timber is shown not alone by the aggregate amount actually given away but the large number of permittees among which this timber was distributed. The total number of free use permits actually issued in District No. 4 during the year was 13,052, making the average amount taken by each permittee approximately 3000 feet. All of this timber was used personally by the permittees in the upbuilding of their ranches and homes. It represents all classes of material, the most common being house logs, fence posts and poles, derrick poles, corral poles, barn timbers, etc.

Forestry officials state that sometimes complaints are made that \$20 worth of timber annually is not sufficient to meet the local needs of settlers and they point out that such statements are clearly disproved by the showing that of over 13,000 settlers who ask for free use timber the average amount taken is only about 3000 feet or \$6 to \$10 worth of material.

The annual statement shows that the heaviest free use forest in the district is the Targhee on which 929 permits, aggregating 4,778,000 feet of timber, were issued. The forest which issued the largest number of permits was the Mindoka where 1419 settlers were given an aggregate of 2,257,000 feet of timber. Other forests on which the free use business was heavy are the Weiser, Salmon, Lemhi, Palouse, Wyoming, Cache, Potomac, Utlah, Ellmore, Fishlake, Mantle, Sevier and Humboldt. The forests on which the heaviest timber sale business was done are the Payette, Salmon, Targhee, Wyoming, Mantle and Tolyabe. The Payette forest leads in the point of timber sale receipts, approximately \$20,000 being received for timber cut from this forest. The total timber sale receipts for the entire district during the past fiscal year showed an increase over receipts for the preceding fiscal year of 48 per cent. Officials of the local timber sale office state that the timber cut and sold to date for the present fiscal year is in excess of that cut and sold for the same period of the last fiscal year, indicating that the present year will show a still greater increase in the timber sale business of the district.

## DOCTOR DISAPPEARS VERY MYSTERIOUSLY

Antwerp, Oct. 2.—The mystery of the disappearance of Dr. Rudolf Diesel, the German inventor, while on his way from Germany to England, was still further deepened today by the assertion of a member of the crew of the cross channel steamer Dresden, who said that Dr. Diesel went on board the steamer at half past five in the evening of September 28, but on learning that the vessel was not to start until half past seven, went ashore and was not seen again.

London, Oct. 2.—The statement made by a sailor that Dr. Rudolf Diesel did not travel on board the steamer Dresden is contradicted by the declaration of George Carrels, an official of the Diesel company, that he dined with Dr. Diesel on board the Dresden and left him on the ship's deck at 10 o'clock on September 29.

**TILLIE'S PHILOSOPHY.**  
Tillie Clinger says she may be mistaken, but she estimates that spending two months' salary for a two week's vacation is about like buying \$30 worth of gingersnaps.—Dallas News.

## STUDENTS LISTEN TO ARC LIGHT ON DARK STREET TO BE ERECTED

Professor Nelson made the address to the students of Weber academy Monday morning on the "Spiritual World," pointing out this as the source of all intelligence on the earth. No man "finds himself" until he is headed toward this divine source of being. It is the key to the mystery of life. To him who is born anew of nature, indeed, the whole universe is marshaled into perspective. Truth, as well as all truths, points in that direction.

The church, with its marvel of executive perfection, has this sole aim and object, to help all human souls to find themselves, and especially those souls immediately committed by birth to its fostering care, whence the speaker narrowed his theme to the thought that this school, and every church school, exists solely that it may help its students find the spiritual life; in other words, gain a testimony of the gospel. This greatest gift of God being obtained, all other gifts essential to man's well being will come as naturally and inevitably as flowers follow leaf in the unfolding of the lily of the field.

The poet as prophet, probably conveys in a general way the substance of Mrs. Ida A. Shurtliff's short address at devotional Tuesday morning. The speaker read three famous poems, "Crossing the Bar," by Tennyson, "Prospect" by Browning, and "O, My Father," by the late Eliza R. Snow. Each set forth a prophecy of the souls in mortality. In Tennyson the idea is dimly outlined and rather hoped for; in Browning it is confidently predicted; in Eliza R. Snow it is pictured in glowing detail and circumstance.

Wednesday morning each week is devoted to a more elaborate program lasting an hour. The speaker yesterday was Elder Samuel Dye and he discussed the new truths in religion given to the world by the Prophet Joseph F. Smith. It was a very forceful address. Both faculty and student body gave the speaker warm attention, than which there was no better mark of appreciation.

## ELECTION HELD BY THE KNIGHTS OF COLUMBUS

At the regular meeting of Ogden Council No. 777, Knights of Columbus, held last evening, after the regular order of business, the annual election of officers was held, and the following were successful:  
Dr. J. P. Dinneen, grand knight;  
John Fisher, deputy grand knight;  
W. J. Dermody, chancellor; John A. Junk, recorder; L. J. Healy, financial secretary; L. J. O'Connor, treasurer; W. S. O'Brien, Sr., advocate; John Mack, warden; Carl Blaes, inside guard; J. J. Gilles, outside guard; J. V. Ladd, trustee, for three years.

## Choice of Eleven Trains to Salt Lake City for CONFERENCE STATE FAIR OREGON SHORT LINE \$1.10 Round Trip

On sale daily up to Oct. 6th, inclusive. Return limit Oct. 12th. City Ticket Office, 2814 Washington Ave.

## DR. E. I. RICH AT THE HIGH SCHOOL

Dr. Edward I. Rich addressed the students of the high school yesterday afternoon on the subject of health. After pointing out the value of proper food, proper exercise and ventilation, he urged the students to follow the advice of the health department of the city and boil the drinking water.

Before the address, the school orchestra rendered some selections and Miss Gladys Rich played a piano solo.

## COLLECTORS OF CUSTOMS TO MEET

Washington, Oct. 2.—Secretary McAdoo today called a conference of collectors of customs to be held at New York beginning November 3, to consider improved methods in customs administration. In the interest of economy and efficiency it is expected that the conference will recommend sweeping reforms. Collector Mitchell of New York, and Frederick A. Cleveland already have made an investigation of administration methods at New York and have made recommendations to Secretary McAdoo for making it a model port.

The city commissioners this morning granted the petition of property owners for an arc light on Grant avenue, between Nineteenth and Twentieth street. It was in this locality that James Gaines was beaten up by thugs last week.

The city engineer was instructed to publish notice of intention to build curb and gutter on Madison avenue, between Twenty-second and Twenty-fourth streets.

The city recorder reported protests against establishing sewer district No. 121. The protests were referred to the engineer for computation.

The reports of the poundkeeper and section were presented and ordered filed.

Payrolls were allowed and the auditor instructed to draw warrants for the several amounts, as follows: Street department, labor, \$1,645.69; Street department, sprinkling, 728.00; Sanitary department, labor, 163.90; Waterworks department, permit, 946.95; Engineering department, 1,422.77; Cemetery, 115.00.

## PRISONERS GET OUT OF THE WEBER COUNTY JAIL

By enlarging the opening through which the steam pipes enter the county jail from the boiler room, three prisoners, awaiting trial in the district court on various felonious charges, escaped last evening between 6 and 7:30 o'clock.

The prisoners are Bert Anderson, charged with burglary in the second degree, Harry Donley, charged with highway robbery and William Kent, arrested Sunday for stealing clothing and articles from the home of Joseph Barker at North Ogden.

When the escape of the man had been learned, the railroad yards, jungles and haunts of the lower classes were visited, but the officers were unable to get a trace of the former prisoners. The three wore shirts and trousers when the delivery was made but no coats.

Deputy Sheriff Louis Hobson was the first of the sheriff's force to learn of the jail break. He had just arrived at the office and was making a preliminary tour when the remaining prisoners told him that the three birds had flown. It was found that after the three had crawled through the enlarged opening, escape was easy, as the doors to the boiler room are open most of the time.

Yesterday was wash day when the prisoners may take a semi-weekly bath, if they so desire. It has been given an opportunity to exercise after the bath and before supper by walking up and down the corridor just outside the general cage. After supper they are supposed to be locked in the cells within the general enclosure. It is said the practice was not followed yesterday.

Instead, the prisoners were in the corridor after supper and it is believed that Donley, the alleged leader of the three, took the opportunity to make a delivery. A hook, upon which steam pipes were suspended, was torn from its fastening and with this the sheet iron that covered the opening through which the pipes emerged from the boiler room was torn off. With the hook, the opening also was enlarged by the simple expedient of pulling down the crumbling wall. When the hole was of sufficient size to permit of squeezing through, the three climbed up pipes to the hole eight feet above the floor wormed through the hole and were free.

Deputy Sheriff Ellsworth was in charge of the jail at the time of the escape. Deputy Walter Richey arrived at 7:30 o'clock to begin his shift and relieve Ellsworth. Richey arrived at the same time as Deputy Hobson and asked Hobson to remain until he secured some cigars. While Richey was away, Hobson made the discovery.

Bert Anderson, who is charged with burglary, the store of T. S. Hutchison, is the son-in-law of the Mrs. Mary DeFord, who signed an agreement whereby she was to receive \$1000 if the diamonds stolen from John Hamner were returned. He is 23 years old, is 5 feet 6 1/4 inches, has light brown hair and the little finger on his right hand is crooked.

Kent is 25 years old, is medium complexioned and is 5 feet 8 inches tall.

Donley is 26 years old, has brown eyes and brown hair and is 5 feet 6 3/4 inches.

A Chautauqua reading circle was organized last night when a number of citizens met at the city hall and decided to hold the first meeting Wednesday, October 17, at the home of Mrs. Georgiana Marriott, 233 Twenty-third street.

President of the meeting, Mrs. Lillibet Frey, presided at the meeting. The officers were elected as follows:

Vice president, Mrs. H. N. Green; secretary, Miss Hilda Holbert; time-keeper, Dr. E. P. Mills. The officer known as timekeeper is to see that the meetings do not extend over the allotted time.

Good books to be read will be obtained through the state organizer and all book lovers are invited to attend the sessions.

Mexico should cheer up. At least she hasn't any militant suffragettes.

## Specials for Friday

Tomorrow—Friday—these Conference Specials are all on sale. There has been a strong demand for every one of these items ever since the first announcement, which we believe is the surest indication of their worth. Shop here tomorrow.

20 per cent off on all ladies' street pumps and oxfords.			
Our complete line of fall shoes are now in stock.			

## WRIGHTS' WRIGHTS' WRIGHTS'

## READING CIRCLE OF CHAUTAUQUA DUCK SHOOTING REPORTED GOOD

Better duck shooting than has been possible in ten years was yesterday reported from all parts of the state, according to Fred W. Chambers, state fish and game warden.

Reports from the nearby marshes, said the warden, were to the effect that no better shooting had ever been known in those localities. Similar reports had been received from Cache, Utah, Sanpete and Sevier counties, the hunters saying that the ducks were more plentiful than for ten years past. Quail are also reported to be numerous, and hunters who are sufficiently expert with the gun are bagging their full quota of the game bird.

Warden Chambers received word from Bingham yesterday that by Sun-

day there would be at least seventy-five deer hunters out in the Oquirrh range. He said that in view of that prospect he would have from seven to ten deputy wardens, out in that country to see that there was no infraction of the game laws.

Dr. T. S. Palmer of the biological survey, bureau of animal industry, Washington, D. C., yesterday advised Mr. Chambers by telegraph that President Woodrow Wilson had approved the bill giving federal protection to migratory birds as they pass through the states. The measure also renders it impossible to ship dead

birds out of one state in which local laws forbid sale at certain seasons of the year. This assists in rendering more effective the state laws for protection of game birds.

**BOARDING HOUSE REPORTE.**  
He was one of those fresh young fellows, given to the use of bromide and stale slang. At the breakfast table, desiring the milk, he exclaimed: "Chase the cow down this way, please."  
"Here, Jane," said the landlady, "take the cow down to where the calf is bawling."
